Maths - four quadrants

Due today at 23:59

Instructions

Make sure you watch the video of me to help you - it will explain everything step by step. You can skip what I say if you think you've got it, you can pause it and play it as many times as you need.

Reference materials

-  weds four quadrants starter.pdf ...
-  Maths wednesday.pptx ...

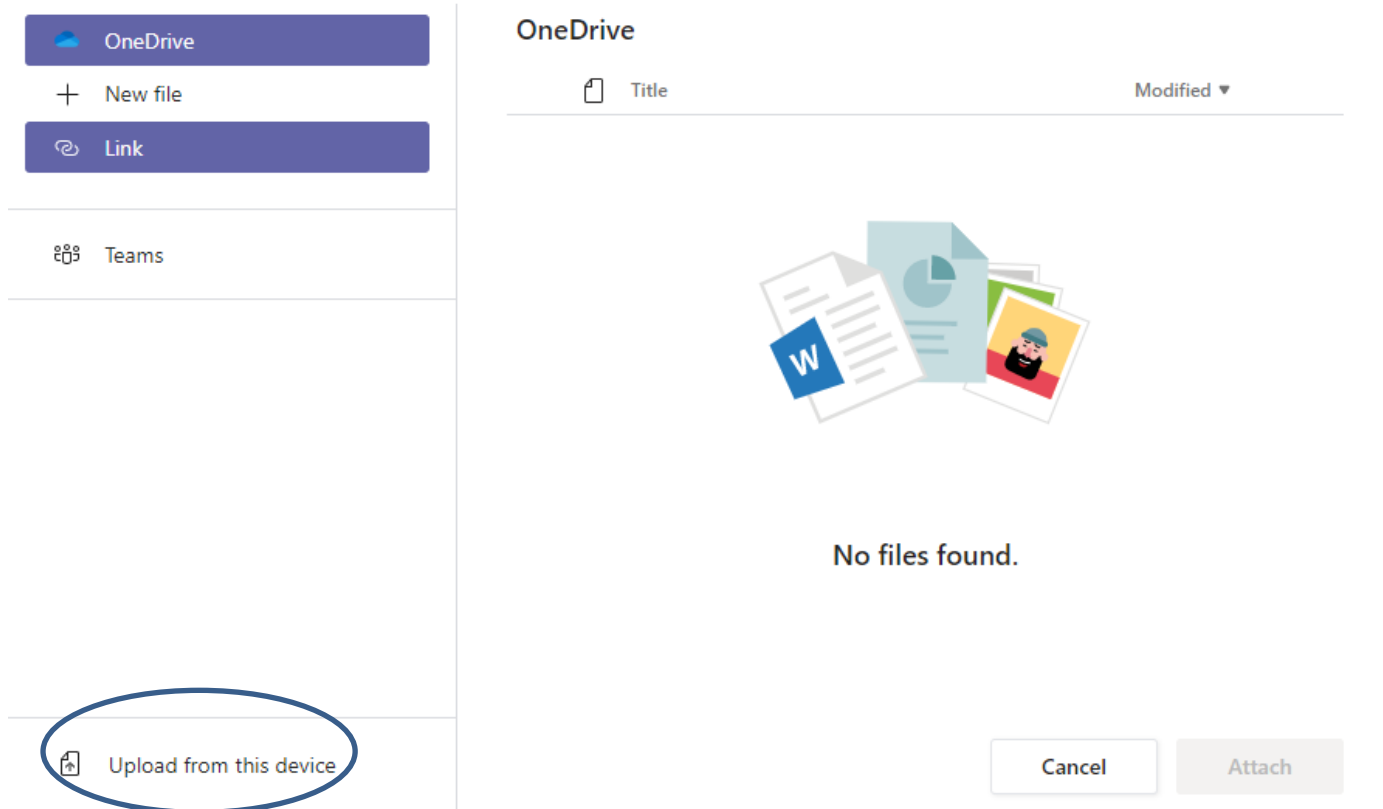

My work

-  Coordinates in all 4 quadrants task 1 no printer.docx ...

 Add work

If you are unable to edit the document online (such as pdfs), you will need to write your answers on paper and take a photo of this or type your answers in a blank Microsoft word document and save the document.

When you have done this, click 'add work'

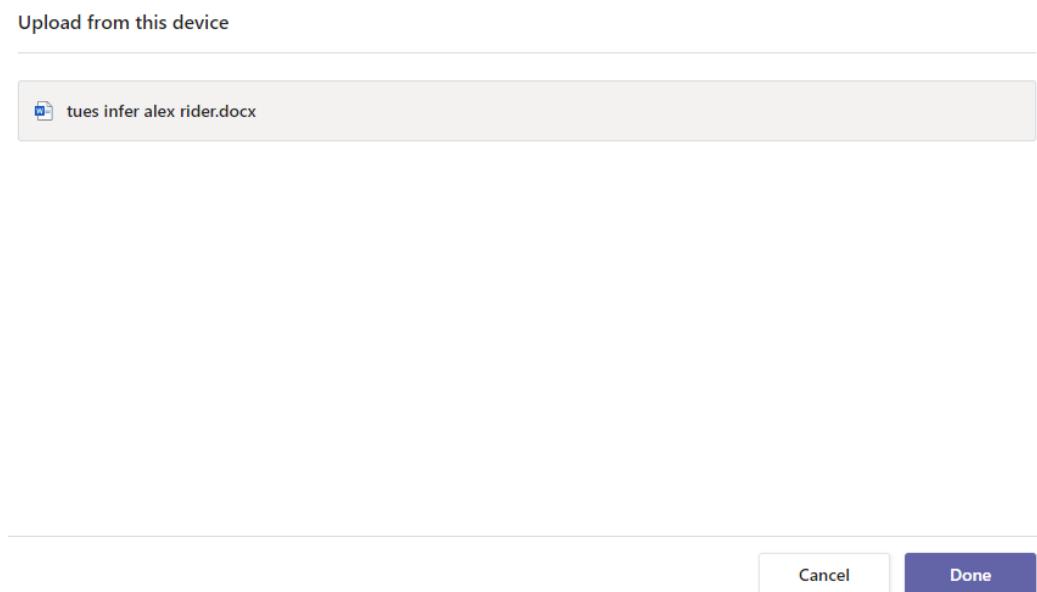

Find where you have saved your Microsoft work document by clicking 'upload from this device', or similarly if you have saved an image you will need to click this too.

Select your document

Click open

You will then see it uploading

Then click done

Then click 'hand in' in the top right corner of your screen
