

Welcome to our RSE and pastoral parent forum.

Aims of this evening:

- Review the website.
- Review the parent lending library.
- Review our RSE vocabulary.
- To work in partnership with parents of Long Row and gather your thoughts and ideas on what support is available and what else you think is needed.

What vocabulary do we use?

We teach conception in year 6:

Let's consider what language we might need as a precursor to teaching about sexual intercourse...

You have a list of words and when they are introduced - have a look at the questions and write down your thoughts. This will help us to build the information and understanding for all parents.

Books available in the lending library

- Spread out are some books – we may not get chance to view them all!
- Have a look at some books – look at the blurb, the contents page and flick through and write a short description as to how this may be useful and give it a review of what you think.
- How can we promote our lending library more to parents?

Website Review

- I have put out some i-pads for you to review the website pages.
- Have a look at what is on the page presented to your group. Do you think we can reword anything or add anything?
- Click on some of the links – do you think this page is helpful? Why?
- Are there any further website you think would be helpful?

You will either be reviewing:

- Pastoral
- Relationships Education.
- Curriculum – PSHE – these have the progression documents, policies and overviews on them – please have a look and see (there are no web links on these).

Some questions for you to consider...

- How would you suggest we share these links with other parents effectively?
 - E.g. via newsletters
 - On the website where they can be accessed often
 - A poster with the key messages
 - At parents' evenings
-
- What else would be helpful in supporting parents as partners in RSE and pastoral?
 - Any other resources – links or books – that you have used and would recommend?
