Dear parents and carers

Your child has been learning to play a musical instrument in school as part of the Wider Opportunities programme during this year. As we near the end of this programme, you may be curious about the options available to continue learning.

You may have seen some of the benefits that learning an instrument can provide throughout this year, and it is our aspiration for many of the pupils to continue learning next year. These lessons take place in-school and as small groups, paired, or individual lessons.

Children who have completed a Wider Opportunities programme also qualify for a free loan of an instrument and a bursary of £1.50 per lesson for their first year of learning.

Registering for lessons is quick and easy using the QR code or website link above. You can also contact me directly at **mbarksmusic@outlook.com** if you have any further questions.

I look forward to hearing from you.

Mr Barks
